

PERFECT PITCH.

The lightweight, superb collection and striping performance capabilities are further enhanced on the lithium-ion battery-powered eProStripe by quiet operation, low vibrations levels, and zero engine exhaust emissions. With two of Toro's 60V* Flex-Force Power System® batteries, the electric version is ensured a long run time as well as compatibility across a wide range of hand tools and machinery.

FEATURES

High Definition Stripes

- Precisely formulated roller leaves crisp, visually striking stripe while keeping overall weight of machine low to nurture grass blade health and avoid compaction

One Pass Operation

- Mow, remove divots and debris, and smooth in one wide pass

Fine Turf Performance

- Low cutting height ability designed for sports fields and high impact settings

Powered Transport

- Use traction drive independent of the cutting blade for easy no-mow travel between sites

Flex-Force Power System

- Electric power version of the eProStripe 560 uses two Toro-designed 60V* lithium batteries to ensure long, quiet run time, while maintaining compatibility with over 50 Flex-Force tools

Agility & Mobility

- Two piece, ribbed roller allows zero-turn ability to prevent wheel tear while giving superior traction

MatchDrive®

- Variable speed electric transmission system provides three preset speeds, consistent with the mechanical drive on the ProStripe, plus an additional variable speed option providing a greater speed range and fine tuning to suit conditions and consistent operation of multiple units

Grooming Ease

- Enhance appearance and turf health with optional brush kit that stands up grass blades for a cleaner cut, reduces lateral blade growth and loosens debris for removal
